**Re: Stakeholder Feedback – Adjusting EEC Criteria
Request Issued Apr. 11, 2023; Comment Deadline May 5, 2023
Confidential EEC Response**

To Whom It May Concern:

We represent an Equity Eligible Contractor (“EEC”) Approved Vendor (“AV”) in the Illinois Adjustable Block Program (“ABP”) that would like to remain confidential for purposes of submitting these comments. Accordingly, we respectfully request that the Illinois Power Agency (“IPA”) accept this confidential EEC’s comments through the care of the undersigned, with the understanding that such comments do not in any way reflect the positions of Barnes & Thornburg LLP, its employees, partners, agents, or affiliates, nor any of its other clients.

Subject to that qualification and understanding, the confidential EEC at the outset notes that its responses are an attempt to prioritize providing direct opportunities to EECs and equity eligible persons (“EEPs”) while avoiding undue burdens on applicants and program administrators. Such direct opportunities and their economic benefits should be primarily conferred upon those who have historically faced, and continue to face, discrimination and the direct long-term socio-economic impacts of discrimination in the various ways defined in the Illinois Power Agency Act.

It is thus the confidential EEC’s position that additional criteria and processes are warranted for EEPs to qualify as EECs in the ABP so as to prevent opportunities for “gamesmanship” and to ensure that opportunities do in fact redound to the persons that the program is intended to benefit. Importantly, as described further below, the IPA would be able to draw upon **existing** criteria and processes that have been developed for and administered by other governments and agencies—for other purposes and programs—that serve an important gatekeeping function so that opportunities are apportioned to diverse and underserved communities in an equitable manner.

We reproduce the IPA’s requests, and the confidential EEC’s responses, in line below.

1. Should an Equity Eligible Person be Able to Serve as the Qualifying EEP for More Than One Equity Eligible Contractor?

EEC RESPONSE: An EEP should be able to engage in ordinary-course business dealings, including being the majority owner of subsidiaries or affiliate companies, such as those companies that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the EEP. However, one EEP should not be allowed to serve as the qualifying EEP in firms that are unaffiliated with the entity (or its subsidiaries, affiliates, or parents) under which the EEP originally qualified.

2. Should the Agency Require Additional Demonstrations of Equitable Impact for Companies Seeking EEC Certification Based on Majority-Ownership of a Silent Partner Equity Eligible Person? If So, What Might Those Entail?

EEC RESPONSE: As it currently stands, EEPs can qualify as:

- (1) “persons who graduate from or are current or former participants in the Clean Jobs Workforce Network Program, the Clean Energy Contractor Incubator Program, the Illinois Climate Works Pre-apprenticeship Program, Returning Residents Clean Jobs Training Program, or the Clean Energy Primes Contractor Accelerator Program, and the solar training pipeline and multi-cultural jobs program . . . “;
- (2) “persons who are graduates of or currently enrolled in the foster care system”;
- (3) “persons who were formerly incarcerated”; or
- (4) “**persons whose primary residence is in an equity investment eligible community.**”

20 ILCS 3855/1-10 (emphasis added). For categories (1)-(3), there is a reasonable relation between those who qualify within these categories and social and economic disadvantage. However, for category (4)—*i.e.*, residing, without more, in an eligible community—there is not. Because a non-disadvantaged person could easily rent or purchase a property in an “equity investment eligible community” so as to establish a “primary residence” in the same to become an EEP, this category should employ additional “guardrails” to ensure that individuals are not opportunistically renting or purchasing property in eligible communities without any further check on that individual’s qualifications as truly socially or economically disadvantaged.

Luckily, the IPA can draw from several well-established programs to mitigate against this risk. In other contexts where public agencies certify “minority-owned business,” there are three main criteria that an applicant must demonstrate: (1) social disadvantage; (2) economic disadvantage; and (3) ownership **and control** of the business. For example, under the City of Chicago’s “Regulations Governing Certification of Minority- and Women-Owned Business Enterprises, Veteran-Owned Business Enterprises and Business Enterprises Owned or Operated by People with

Disabilities For Construction Contracts,” to qualify as a “minority owned business,” it must be “**a small local business enterprise** which is at least 51% owned by one or more **economically disadvantaged minority** persons, or, in the case of a publicly held corporation, at least 51% of all classes of the stock of which is owned by one or more economically disadvantaged minority persons, who **independently manage(s) and control(s) the management, policies, major decisions and daily business operations.**”¹ (Ex. A § V(23) (emphasis added).)

Each of these highlighted terms, in turn, impose additional requirements:

- A “local business” is “a business entity that has its principal office (where the business entity directs, controls, and coordinates its activities) located within the counties of Cook, DuPage, Kane, Lake, McHenry or Will in the State of Illinois.” (Ex. A § V(20).)
- A “small business enterprise” is “a business that has gross receipts averaged over its previous seven (7) fiscal years that do not exceed one and half times the size standards of the U.S. Small Business Administration (“SBA”) set forth in 13 CFR Part 121, relevant to the scope(s) of work the firm seeks to perform on the City contracts.” (Ex. A § V(28).)
- “Economically disadvantaged” means “an individual whose personal net worth is less than \$2,000,000, indexed annually for inflation, such annual adjustment to begin January 2008, based on the Consumer Price Index- Urban Wage Earners and Clerical Workers (Chicago All Items) published by the United States Bureau of Labor Statistics. As of January 1, 2022, the personal net worth limit for Economically Disadvantaged individual is \$2,491,543.64.” (Ex. A § V(16).)
- “Minority” means (1) “[a]ny individual in the following racial or ethnic groups, members of which are rebuttably presumed to be **socially disadvantaged**: African Americans or Blacks[, . . .] Hispanics[, . . .] Asian Americans[, . . .] and American Indians”; and (2) “individual members of other groups, including, but not limited to, Arab- Americans, found by the city to be **socially disadvantaged** by having suffered racial or ethnic prejudice or cultural bias within American society, without regard to individual qualities, resulting in decreased opportunities to compete in Chicago area markets or to do business with the city.” (Ex. A § V(22) (emphasis added).)

In other words, an applicant must demonstrate “social disadvantage” and economic disadvantage.” (Ex. A §§ VII-VIII.)

Continuing, “[o]wnership and control by such qualifying individuals shall be real, continuing and shall go beyond the *pro forma* ownership of the Applicant as reflected in ownership documents.” (Ex. A § X(A).) Put another way, the qualified individuals (i.e., the disadvantaged and minority persons” must not only own the corporation but must also manage and control the corporation. As illustrated by one of the requirements:

¹ These Regulations are attached as **Exhibit A**.

Qualifying owners must, either collectively or individually, possess the power to direct or cause the direction of management, policies, and objectives of the Applicant and to make all substantive day-to-day decisions on the Applicant’s major and essential operations. Those persons who have the ultimate power to hire and fire the managers can be considered as controlling the business. No formal or informal restrictions of any kind may exist which limit the customary discretion necessary to actual business control by the qualifying individual. Unless mandated by law, **no restrictions in by-law provisions, partnership of limited liability company agreements, or charter requirements may exist which limit qualifying individuals from effective and continuous control of the Applicant or which prevent qualifying individuals, without the cooperation of any owner who is not a qualifying individual, from making any operational business decision for the Applicant.** In all cases, any business relationship between Applicant and its qualifying owners and non-qualifying individuals shall be given scrutiny.

(Ex. A § X(A) (emphasis added).)

Chicago’s program is comparable to the requirements imposed upon governments that accept federal financial assistance from the U.S. Department of Transportation (“DOT”). For example, Chicago is a recipient of U.S. DOT funds, which in turn obligates Chicago to administer Disadvantaged Business Enterprise (“DBE”) and Airport Concessions Disadvantaged Business Enterprise (“ACDBE”) certifications, with requirements found under 49 C.F.R. Parts 26 and 23.

The Illinois Department of Transportation, City of Chicago, Chicago Transit Authority (“CTA”), Northeast Illinois Regional Commuter Railroad Corporation (“Metra”), and Pace Suburban Bus (“Pace”), a division of the Regional Transportation Authority, have a federally funded statewide program for DBEs. These agencies have established the Illinois Unified Certification Program (“IL UCP”), which is based on the concept of reciprocity among the agencies. “One stop shopping” is provided to DBE program applicants, such that an applicant need only apply once for statewide DBE certification that will be honored by all participating agencies in the IL UCP. Although the Cook County Highway Department does not have its own DBE program, it utilizes IL UCP-certified DBEs on its highway projects.

Similarly, once qualified utilizing these criteria, an EEP here should not need to “recertify” and should not be limited in engaging in normal business growth strategies including establishing subsidiaries, partnerships, or joint ventures.

3. To Increase the Transparency Regarding Companies that Qualify as an Equity Eligible Contractor and Submit Projects to the Equity Eligible Contractor Category, What Information Might the Agency Require be Published on the ABP Website?

EEC RESPONSE: Because an EEC’s qualifying criteria could be sensitive in nature, especially if the IPA adopts the existing criteria and processes that have been developed for and administered by other governments and agencies as identified above, the IPA should publish only the legal name of the EECs and their ownership structures, both of which are public corporate information.

4. What Forms of Documentation Could IPA Require All Companies Applying for Certification as an Equity Eligible Contractor to Submit that Would Verify the Claimed Ownership Structure?

EEC RESPONSE: The IPA should require Articles of Incorporation, Governance Documents, Tax Returns, and any other documents that can reasonably establish not only ownership but actual management and control by the qualifying EEPs.

5. Are There Variations on the Above that Strike a Better Balance? For Example, the Agency Could Implement a Prioritization System Within the Equity Eligible Contractor Category Based on the Above Factors, Providing Bonus Points for EECs That Meet One or More of Those Criteria and Selecting Projects Based on Points Received. Alternatively, the Agency Could Reserve a Portion of that Capacity for Entities that Meet Some of the Above Factors – What Might Be a Reasonable Reserve Portion to Ensure State Incentives Benefit The Intended Actors?

EEC RESPONSE: Because category (3) under the current rules (*i.e.*, those who were formerly incarcerated) bear particularly acute social and economic disadvantages, it makes sense to prioritize or award “bonus points” to EECs that qualify under category (3). Furthermore, as is recognized under the “minority-owned business enterprise” constructs identified above, it also makes sense to prioritize or award “bonus points” to EECs that qualify based upon their individual status as black, indigenous, and/or people of color (“BIPOC”).

The Applicant has the burden of proving by a preponderance of the evidence that the Applicant meets the criteria for a socially disadvantaged individual. Evidence of individual social disadvantage must include the following elements:

- i. At least one objective distinguishing feature that has contributed to social disadvantage, such as race, ethnic origin, long-term residence in an environment isolated from the mainstream of American society, or other similar causes not common to individuals who are not socially disadvantaged.
- ii. Personal experiences of substantial and chronic social disadvantage in American society, not in other countries.
- iii. Negative impact on entry into or advancement in the business world because of the disadvantage. Any relevant evidence will be considered in assessing this element. In every case, however, education, employment and business history will be considered to see if the totality of circumstances shows disadvantage in entering into or advancing in the business world. In evaluating education, employment and business history, the following factors will be considered:
 - a. Education. Such factors as denial of equal access to institutions of higher education, exclusion from social and professional association

with students or teachers, denial of educational honors rightfully earned, and social patterns or pressures which discourage the individual from pursuing professional or business education;

- b. Employment. Such factors as unequal treatment in hiring, promotions and other aspects of professional advancement, pay and fringe benefits, and other terms and conditions of employment, retaliatory or discriminatory behavior by an employer, and social patterns or pressures which have channeled the individual into nonprofessional or non-business fields; and
 - c. Business history. Such factors as unequal access to credit or capital, acquisition of credit or capital under commercially unfavorable circumstances, unequal treatment in opportunities for government contracts or other work, unequal treatment by potential customers and business associates, and exclusion from business or professional organizations.
- A. Once the Contracting Equity Officer, receives an Affidavit of Individual Social Disadvantage the form will be dated and time stamped. The date and time stamp will conclusively establish the receipt date of such form.
 - B. The Certification Unit will send a written acknowledgement of having received a completed Affidavit of Individual Social Disadvantage to the Applicant and then complete a thorough review. This review may include interviews with the Applicant and review of specific additional information as requested by the staff. Affidavits containing omissions or deficiencies will be returned to the Applicant, with notice of the nature of the omissions or deficiencies. The date and time stamp on a resubmitted form will conclusively establish the receipt date of the form. Nothing in these Regulations will be construed to limit, or in any way prohibit, the City from requesting and giving due consideration to any information obtained from any source relative to any Applicant's determination.
 - C. After review by the staff, the Contracting Equity Officer, will refer the completed Affidavit of Individual Social Disadvantage and any supporting documentation to the Board for review and recommendation.
 - D. During its review, the Board may request additional information or interviews from the Applicant. Any request for additional information shall be in writing and will require a response within 30 calendar days unless the Applicant requests additional time. If the Applicant fails to respond within 30 calendar days and does not request an extension of time to respond, the Board will close the file and notify the Applicant that the Applicant is no longer being considered.
 - E. The Board will make a written recommendation to the Contracting Equity Officer, as to whether or not the Applicant is socially disadvantaged.

- F. The Contracting Equity Officer, will make the final determination regarding the Applicant's status as a socially disadvantaged individual based on the criteria established in this Section.
- G. The final decision of the Contracting Equity Officer, shall be communicated in writing to the Applicant within 15 calendar days of the date of the final determination. The decision of the Contracting Equity Officer, cannot be appealed.

VIII. DETERMINATION OF ECONOMIC DISADVANTAGE FOR MBE/WBE CERTIFICATION

The Applicant's owner(s) must submit a Personal Net Worth Statement and the owner's seven most recent individual federal income tax returns. The owner's personal net worth must not exceed \$2,379,729.54, indexed annually for inflation. As of January 1, 2022, the personal net worth limit for an Economically Disadvantaged individual is \$2,491,543.64.

An individual's personal net worth does not include the individual's ownership interest in an applicant, or other business that is not publicly held, or the individual's equity in any real estate and any related fixtures or furnishings. An individual's net worth also does not include the value of the individual's interest in any pension plans, Individual Retirement Accounts, 401 (k) accounts, or other retirement savings or investment programs. As to assets held jointly with his or her spouse, an individual's personal worth includes only that individual's share or such assets.

IX. DETERMINATION OF SMALL BUSINESS ENTERPRISE STATUS

An Applicant must be a Small Business Enterprise. To be a Small Business Enterprise, an Applicant's total annual gross receipts, averaged over the most recent seven (7) fiscal years, cannot exceed one and one half times the size of the U.S. Small Business Administration's ("SBA") Size Standards, as promulgated in [13 CFR Part 121](#).

For Applicants who have been in business for less than seven (7) complete fiscal years, the total gross receipts for the period it has been in business divided by the number of weeks in business, multiplied by 52 cannot exceed one and one half times the size of the SBA Size Standards.

The average annual receipts size of a business concern with affiliates is calculated by adding the seven-year average annual receipts of the business concern with the seven-year average annual receipts of each affiliate.

X. CERTIFICATION ELIGIBILITY

An Applicant for certification must be operational and in business for profit. The minority, women, and/or veteran owners and/or owners with disabilities (“qualifying owners”) of the firm must possess the resources and the expertise to operate in the firm’s field of work.

False, erroneous or misleading statements by an Applicant regarding its performance on any contracts, or involvement in contracting or certification-related irregularities with any entity, and non-compliance with reasonable requests of the City for information concerning eligibility shall be accorded substantial weight in determining the Applicant’s certification or decertification.

A. Ownership and Control

Ownership acquisition must be through real and substantial contributions of expertise, capital or other tangible personal assets derived from the assets of the qualifying owners. Where expertise is used as the contribution to acquire ownership, the qualifying owners either collectively or individually must demonstrate expertise in all areas of the firm’s critical operations.

Determinations of ownership in the Applicant firm by minorities, women, veterans, and individuals with disabilities (“qualifying individuals”) shall be made without regard to the community property laws of any state.

1. The Applicant must establish by a preponderance of the evidence that it is owned and controlled by qualifying individuals.² The Applicant must establish that either collectively or individually the qualifying owner(s):
 - i. Possess demonstrated financial resources to acquire ownership and past experience that verifies demonstrated capability to engage in business in the area of specialty for which certification is sought. It is of no consequence that other partners/owners, spouses or employees have these abilities or resources;
 - ii. Exercise responsibility for the critical areas of the Applicant’s daily operations and make independent and unilateral business decisions;

² A nonprofit corporation that is not owned by individuals with disabilities may be eligible for certification as a BEPD if (1) the purpose of the entity includes providing, directly or indirectly, services to individuals, (2) the nonprofit corporation employs individuals with disabilities and pays them an hourly wage that is not less than the federal minimum wage and not on a piece work basis, and (3) the entity’s management and daily business operations are controlled by one or more individuals with disabilities as set forth in Section 2-92-586 of the Municipal Code of Chicago. Furthermore, a for-profit corporation may be eligible for certification as a BEPD if it is directly, indirectly, or beneficially 51% or more owned by individuals with disabilities as set forth in Section 2-92-586.

- iii. Possess adequate assets or resources to operate self-sufficiently in areas of financing, bonding, supervision, personnel, equipment, materials and facilities;
- iv. Accept risks and profits commensurate with their ownership interests, as well as receive at least 51% of any dividends,

The differences in remuneration between the qualifying owner and other participants in the firm may be considered in determining whether to certify the Applicant. Such consideration shall be in the context of the duties of the persons involved, normal industry practices, the Applicant firm's policy and practice concerning reinvestment of income, and any other explanations for the differences proffered by the Applicant firm. It may be determined that the Applicant firm is controlled by its qualifying owner although that owner's remuneration is lower than that of non-qualifying participants in the firm.

In a case where a non-qualifying individual formerly controlled the firm, and a qualifying individual now controls it, a difference between the remuneration of the former and current controller of the firm can be considered as a factor in determining who controls the firm, particularly when the non-qualifying individual remains involved with the firm and continues to receive greater compensation than the qualifying individual,

- v. If a corporation, exercise control of the board of directors;
- vi. If a partnership, exercise control of the business enterprise as documented in a partnership agreement;
- vii. If a limited liability company, exercise control of the company, as documented in the articles of organization or the regulations and membership in the company and ownership of membership interest;
- viii. A qualifying owner must hold the highest officer position in the company (e.g., chief executive officer or president);
- ix. If a state or local law requires the owner to have a particular license or other credential in order to own and/or control a certain type of firm, then the qualifying individual who owns and controls must possess the required license or credential. If state or local law does not require such a person to have such a license or credential to own and/or control a firm, the Applicant firm cannot be denied certification solely on the ground that its owner lacks the license or credential. However, the absence of the license or credential can be considered as one factor in determining whether the qualifying owners actually control the firm.

2. Ownership and control by such qualifying individuals shall be real, continuing and shall go beyond the *pro forma* ownership of the Applicant as reflected in ownership documents. The qualifying owners must enjoy all customary incidents of ownership and share in all risks and profits commensurate with their ownership interests, as demonstrated by a detailed examination of the substance of their business arrangements with others. Ownership is demonstrated by:
 - i. Verifiable assets for acquisition derived from independently owned holdings. A transfer of assets may be considered independently owned holdings only if supported by payment of fair and adequate consideration.
 - ii. Documentation must be found in the business records of the Applicant. The records must clearly show the contribution of such expertise and its value to the Applicant.
 - iii. If the Applicant is a corporation, the ability to transfer stock, title, and possession of securities that represent ownership of the applicant by qualifying individuals and are directly and physically held by them, without limitation by non-qualifying individuals. All securities that constitute ownership of a firm shall be held directly by qualifying individuals. Except as provided in this paragraph (iii), no securities or assets held in trust, or by any guardian for a minor, are considered as held by qualifying individuals in determining the ownership of a firm. However, securities or assets held in trust are regarded as held by qualifying individuals for purposes of determining ownership of the firm, if
 - (a) The beneficial owner of securities or assets held in trust is a qualifying individual, and the trustee is the same or another such individual; or
 - (b) The beneficial owner of a trust is a qualifying individual who, rather than the trustee, exercises effective control over the management, policy-making, and daily operational activities of the firm. Assets held in a revocable living trust may be counted only in the situation where the same qualifying individual is the sole grantor, beneficiary, and trustee.
 - iv. Debt instruments from financial institutions or other organizations that lend funds in the normal course of their business do not render a firm ineligible, even if the debtor's ownership interest is security for the loan.
3. Contributions of capital or expertise by qualifying owners to acquire their ownership interests in the Applicant must be real and substantial and be in proportion to the interest(s) acquired. Such contributions will not be required if the qualifying owner can demonstrate that it has received a bona fide inheritance

from a deceased Relative to acquire ownership, which inheritance was not made for the purpose of obtaining certification. For purposes of this determination, a Relative shall mean an immediate family member, a sibling, a parent or a grandparent. Contributions of capital or expertise are also not required if the qualifying owner acquires its ownership interest in the Applicant as a gift from a Relative, subject to the following exceptions. For the purposes of these Regulations, “gift” includes the acquisition of interests in a business or other assets obtained for a nominal sum or an amount below market value

(1) It shall be presumed as not being held by qualifying individual, for purposes of determining ownership, all interests in a business or other assets obtained by the individual as the result of a gift from a Relative who is:

- i. substantially involved in the Applicant firm, or an affiliate of that firm;
- ii. substantially involved in the same or a similar line of business; or
- iii. engaged in an ongoing business relationship with the Applicant firm, or an affiliate of that firm.

(2) To overcome this presumption and permit the gifted interests or assets to be counted, the qualifying owner must demonstrate, by clear and convincing evidence, that:

- i. the gift or transfer to the qualifying owner was made for reasons other than obtaining certification; and
- ii. the qualifying owner controls the management, policy, and operations of the firm, notwithstanding the continuing participation of the Relative who provided the gift or transfer.

4. Insufficient contributions of capital or expertise shall include, but are not limited to:

- i. Promises to contribute capital or expertise in the future.
- ii. Notes payable from qualifying owners to the Applicant or owners who are not qualifying individuals.
- iii. Participation in the Applicant by qualifying owners as mere employees.
- iv. Provision by any owner of goods, services, or equipment having an actual or estimated value based upon industry standards substantially less than the value attributed in the Application.

5. Qualifying owners must, either collectively or individually, possess the power to direct or cause the direction of management, policies, and objectives of the Applicant and to make all substantive day-to-day decisions on the Applicant's major and essential operations. Those persons who have the ultimate power to hire and fire the managers can be considered as controlling the business. No formal or informal restrictions of any kind may exist which limit the customary discretion necessary to actual business control by the qualifying individual. Unless mandated by law, no restrictions in by-law provisions, partnership of limited liability company agreements, or charter requirements may exist which limit qualifying individuals from effective and continuous control of the Applicant or which prevent qualifying individuals, without the cooperation of any owner who is not a qualifying individual, from making any operational business decision for the Applicant. In all cases, any business relationship between Applicant and its qualifying owners and non-qualifying individuals shall be given scrutiny.
6. In order to be viewed as controlling a firm, an Eligible Owner cannot engage in outside employment or other business interests that conflict with the management of the firm or prevent the individual from devoting sufficient time and attention to the affairs of the firm to control its activities. For the purposes of these Regulations, it shall be presumed, unless conclusively established otherwise, that the status of any qualifying individual as an owner/manager of the Applicant shall require full-time participation by the person in the management of the Applicant's day-to-day activities, unless the firm always operates on a part-time basis (evenings only and/or weekends) and the individual controls the firm while the firm is operating. Ownership interests of qualifying owners not participating in the Applicant's operations on an active and substantial basis shall be excluded from the determination of whether the Applicant is owned and controlled by qualifying individuals. In addition, employment histories of all owners and managers shall be reviewed and verified to determine the administrative and business expertise and involvement by such persons in activities and employment that may contradict any representation of full-time management participation.

Absentee management or ownership by any qualifying owner who does not assume and exercise an active and substantial role in the Applicant's day-to-day management shall be considered in the determination of whether the Applicant is owned and controlled by qualifying individuals.

7. Owners of the Applicant who are not qualifying individuals shall not be vested with the primary responsibility or ability to direct its day-to-day management operations. In cases where evidence indicates that major management activities (e.g., hiring and firing of management personnel, equipment/supply acquisitions and purchases, negotiating contracts, estimating contract costs and approval, and check signing) of the Applicant are performed by persons other than the qualifying owners, persons actually performing such duties shall be presumed to control those aspects of the Applicant's business. Where business documents vest an officer of the applicant with the primary responsibility or ability to direct the

Applicant's day-to-day management operations, that officer must be a qualifying owner.

8. The intra-family transfer of ownership in an existing firm or on-going business to a qualifying individual except by demise shall be rebuttably presumed invalid for purposes of eligibility for certification.

B Viability and Independence

1. The Applicant must be an economically viable business. Economic viability shall be determined by its capital structure as established by audited or auditable financial statements, or income projections when the Applicant is a new business. Viability will also be determined by review of at least the following criteria:
 - i. Possession of insurance, bonds and/or licenses (e.g., sewer contractor, plumber, etc.) mandated by applicable governmental agencies to perform the work the Applicant represents as its area(s) of specialty or expertise;
 - ii. Access to real properties and facilities from which to conduct day-to-day business operations;
 - iii. Employment of and/or access to employment of persons in sufficient numbers and with expertise essential to satisfactory contract performance in its area(s) of specialty or expertise;

 - v. Good standing with the Secretary of State or other relevant authority of the state in which the Applicant is incorporated or organized.
2. The Applicant must be an independent business. Independence shall be examined with reference to the perceived ability of the Applicant to perform satisfactorily in its area(s) of specialty or expertise without substantial reliance upon finances, resources, expertise, manpower, facilities, or equipment of non-qualifying individuals. Recognition of the Applicant as a separate and distinct entity by governmental taxing authorities shall not be dispositive of the Applicant's assertion of independence. Independence shall be established by reviewing the following criteria:
 - i The date the business was established.

- ii. The degree to which financial, equipment leasing, business and other relationships with non-qualifying individuals vary from normal industry practice.
- iii. The determination of adequacy of expertise without the need to rely upon a non-qualifying individual.
- iv. In the following and other appropriate cases, the Applicant shall be closely scrutinized to determine its true abilities to operate viably and independently of non-qualifying individuals or to otherwise meet the following viability and independence criteria:
 - (a) The Applicant's status as a party to any long term (i.e., more than three year) contract, lease or lease agreements with non-qualifying individuals.
 - (b) The Applicant's status as a party to any contract, lease, or lease agreements on terms at variance with industry standards or prudent business practices.
 - (c) Interlocking stock ownership of the Applicant and businesses owned by non-qualifying individuals in the same or a related industry.
 - (d) Common directors or officers between the Applicant and businesses owned by non-qualifying individuals.
 - (e) The Applicant's use of employees, equipment, expertise or facilities shared with or obtained from businesses owned by non-qualified individuals.
 - (f) The receipt by the Applicant's non-qualified owners of financial benefits (e.g., dividends, loans, salaries, and distributions) from the Applicant that exceed their proportionate ownership interests.
 - (g) Newly established firms and firms whose ownership and/or control have changed since the date of the advertisement of a specification or the date the Applicant has indicated that a bid response will be submitted.
 - (h) Any previous or continuing employer-employee relationship between present qualifying owners and those who are not qualifying individuals to ensure that all qualifying owners actually have the requisite independent ownership and management responsibilities and capabilities.

3. All information provided by the Applicant shall demonstrate the Applicant's ability to obligate itself contractually, without prior approval of non-qualifying individuals, to a prime contractor, joint venture and/or the City in the performance of a contract, subcontract or legally binding agreement, and to perform the through the use of its own employees and/or equipment.

It shall also afford the Certified Firm fifteen (15) calendar days to file a written appeal in accordance with the procedure set forth in Section XIV below.

- C. Failure of a Certified Firm to submit a written appeal within the required fifteen (15) days of receipt of a Preliminary Notice shall cause the Contracting Equity Officer to accept the facts upon which the Preliminary Notice was based as admitted and to issue a "Notice of Decertification," or a "Notice of Ineligibility for Continued Certification," as appropriate, to the Certified Firm.
- D. Following the decertification or ineligibility of any Certified Firm, the name of such firm shall be removed from the directory of Certified Firms maintained by the Contracting Equity Officer.
- E. Once a firm has been decertified or is determined to be no longer eligible to participate in the Certification Program(s), the dollar value of its work shall not be counted towards the contract goals and/or counted towards the percentage of work for which a bid incentive is taken into consideration in awarding a contract.

However, if a prime contractor has executed a subcontract with the ineligible firm before the firm has been notified of its ineligibility, the prime contractor may continue to use the firm on the contract and may continue to receive credit toward its contract goals for the firm's work and the firm may continue to be counted towards the percentage of eligible subcontractors for which a bid incentive was taken into consideration. The portion of the ineligible firm's performance of the contract remaining after the issuance of the Notice of Ineligibility may count towards the contract goal, but not towards the City's overall goals.

If the ineligible firm's ineligibility is caused solely by its having exceeded the size standard during the performance of the contract, its participation on that contract toward overall and contract goals may continue to be counted.

- F. Any decision by the Contracting Equity Officer to issue a Notice of Ineligibility for Continued Certification shall not affect the certification status of any contractor on any City contract where the Certified Firm's performance was commenced prior to the effective date of the Notice of Ineligibility for Continued Certification. Any decision by the Contracting Equity Officer with respect to decertification of an Applicant shall mean that, as of the date of decertification, the certification status of the Applicant shall not continue on any City contract where the Certified Firm's performance was commenced prior to the effective date of the decertification.

G. The City may decertify a Certified Firm, or find a Certified Firm to be ineligible for continued certification, if the Contracting Equity Officer, determines after review of the paper submissions or upon receipt of a recommendation from the Board that any of the following are true:

- a. the Certified Firm no longer satisfies the applicable certification requirements;
- b. the Certified Firm, or an owner, officer or agent thereof, has made fraudulent misrepresentations to the City regarding utilization of Certified Firms or colluded with another making such misrepresentation in the preceding three years;
- c. the Certified Firm is no longer eligible for City contracts;
- d. the Certified Firm, or any owner, officer or agent thereof, in the preceding three years has committed a crime in connection with the execution or performance of any contract or a crime involving moral turpitude; or
- e. the Certified Firm has been decertified by any other governmental agency.

H. Decertification or ineligibility of a firm for continued certification will affect the firm's re-entry into the program in accordance with the following schedule:

- i. Ineligible firms will not be eligible to seek re-instatement of certification status for at least one year from the date of the "Final Notice of Ineligibility for Continued Certification," unless the Applicant demonstrates that extraordinary circumstances exist regarding its eligibility, and the Contracting Equity Officer determines, in her sole discretion, that the one year waiting period may be waived.
- ii. Firms decertified due to any false, deceptive, or fraudulent material statement, contracting irregularities, improper conduct in connection with the performance of a contract, and/or criminal activity will be ineligible to seek re-instatement of its certification status for at least three years from the date of the "Final Notice of Decertification."
- iii. Firms decertified as a result of debarment, or as a result of ineligibility to do business with the City pursuant to [Chapter 1-23](#) of the Municipal Code of Chicago, will not be eligible to seek re-instatement of Certification status until such time as the debarment, or determination of ineligibility pursuant to [Chapter 1-23](#), is no longer in force.

XIV. APPEALS

- A. Unless otherwise provided by these Regulations, a firm may appeal a decision by the City regarding its application for certification, decertification, or eligibility by sending a letter to the Contracting Equity Officer, within 15 days of receipt of a Preliminary Notice. The appeal must include a full and specific statement as to why the decision is erroneous, what significant fact(s) the Contracting Equity Officer failed to consider, and/or what provisions of these Regulations the Contracting Equity Officer did not apply. No new documents or facts may be submitted with the appeal. The Contracting Equity Officer may, in her sole discretion, request supplemental documentation from the firm. The Contracting Equity Officer has the sole discretion to accept an appeal filed later than 15 days after receipt of the Preliminary Notice if the Contracting Equity Officer determines that there was good cause for the late filing of the appeal or in the interest of justice.
- B. The Contracting Equity Officer will make a decision solely based on the entire Certification File and the firm's response to the Preliminary Notice and any supplemental document or information requested by the Contracting Equity Officer (collectively, the "Administrative Record"). The Contracting Equity Officer may but is not required to conduct an informal hearing in the event the Contracting Equity Officer determines that a hearing is necessary in order to make a determination. The Contracting Equity Officer's decision will be based on the status and circumstances of the firm as of the date of the decision being appealed.
- C. The Contracting Equity Officer may supplement the Administrative Record by adding relevant information made available to her by the Inspector General, Federal, state, or local law enforcement authorities, officials of funding and/or certification agencies, or an interested firm or private party. If supplemental information is considered, the Contracting Equity Officer will provide the appealing firm with a copy of such information upon request by the appealing firm, unless the Contracting Equity Officer is prohibited to do so by the providing party or law or regulation.
- D. The Contracting Equity Officer will affirm the decision unless she determines, based on the entire Administrative Record, that the decision was unsupported by the preponderance of the evidence or inconsistent with these Regulations.
- E. If the Contracting Equity Officer determines that the decision was unsupported by the preponderance of the evidence or inconsistent with the Regulations, the Contracting Equity Officer will reverse the decision.
- F. The Contracting Equity Officer is not required to reverse the decision if she determines that a procedural error did not result in fundamental unfairness to the appealing firm or substantially prejudice the opportunity of the appealing firm to present its case.
- G. If it appears that the Administrative Record is incomplete or unclear with respect to matters likely to have a significant impact on the outcome of the appeal, the Contracting Equity Officer may toll the appeal and allow the firm to re-apply for Certification without the one year waiting period set forth in Section XIII.H., above.

- H. The Contracting Equity Officer will make a decision within 60 days after receiving the appeal unless the Contracting Equity Officer, determines that additional time is needed to make a decision, and provides written notice to the appealing firm. All final actions and/or decisions of the Contracting Equity Officer with respect to the decertification of a Certified Firm or ineligibility of a firm shall be communicated in writing to the Certified Firm or Applicant. The communication shall inform the firm of all material facts upon which such action and/or decision was based. Based on the Contracting Equity Officer's decision, either a "Notice of Rescission" of the Preliminary Notice or a "Final Denial of Certification", a "Final Notice of Decertification" or "Final Notice of Ineligibility for Continued Certification," as appropriate, will be sent to the Certified Firm or Applicant.
- I. All appeal decisions by the Contracting Equity Officer are final and binding, and are not subject to requests for reconsideration.

XV. REFERRAL TO CORPORATION COUNSEL

If at any time following appropriate investigation, the Contracting Equity Officer, has reason to believe that any person or firm has knowingly and willfully provided incorrect information related to, or made false statements in a relation to these Regulations, such matter shall be immediately referred to the Corporation Counsel. Such referral, however, shall be construed as a complement to, and not a limitation upon, the rights afforded the Contracting Equity Officer.

XVI. REFERRAL TO INSPECTOR GENERAL

If, at any time the City has reason to believe that any Applicant, Certified Firm or any firm has committed a crime involving bribery, theft, collusion, anti-competitive activity, or made false statements in connection with any City contract, proposed City contract or bidding irregularities, the Contracting Equity Officer shall immediately notify the City of Chicago Office of the Inspector General. Upon completion of the investigation, should the Inspector General determine that the allegations are founded, the Contracting Equity Officer may take any action deemed appropriate.

XVII. DISCLOSURE TO OTHER GOVERNMENTAL ENTITIES

Upon reasonable request from any governmental entity during the course of any legitimate and lawful inquiry, the Contracting Equity Officer may disclose the contents of any Application, or such other information as may be relevant to any Applicant's eligibility for certification.

XVIII. NON-DISCLOSURE OF CERTIFICATION INFORMATION

Unless otherwise mandated by law, no City employee acquiring knowledge or vested with any responsibilities with respect to certifications shall disclose to any person, other than the Chief Procurement Officer, Contracting Equity Officer, Corporation Counsel, Inspector General or other persons duly authorized to receive certification information, the content of any Application or document filed in support thereof, nor shall such employee disclose to, or discuss with any unauthorized person, information regarding deliberations by the Contracting Equity Officer with respect to certification, continued eligibility and/or decertification of any Applicant. Non-compliance with this section shall subject the employee to applicable City disciplinary action.

XIX. ESTABLISHED BUSINESS DETERMINATION

- A. These Regulation establish guidelines under which the presumption that an entity certified or seeking to be certified as a Certified Firm is an Established Business may be rebutted. This Section of the Regulations governs only the certification of MBEs, WBEs, and VBEs, while certification of DBEs is governed by applicable federal law. A certified entity may be determined to be an Established Business as it relates to all or some of its codes.

The Contracting Equity Officer, is responsible for determining each entity's eligibility for certification or continued eligibility as a Certified Firm. As a portion of that examination, the Contracting Equity Officer, must decide whether an entity is an Established Business. Pursuant to Section 2-92-670 of the Code, and the factual findings made by the City, an entity is presumed to be an Established Business if (1) the business entity and its affiliates are no longer a Small Business as defined by the U.S. Small Business Administration, pursuant to the business size standards found in 13 CFR Part 121 (times one and one half), relevant to the scope(s) of work the firm seeks to perform on City contracts, or (2) if the entity's owners of 50 percent or more are persons who are not Economically Disadvantaged. A firm is not an eligible Small Business in any City fiscal year in which its gross receipts, averaged over the firm's previous seven (7) fiscal years, exceed the size standards of 13 CFR Part 121 (times one and one half) or if the personal net worth of the entity's owners of 50 percent or more exceeds the personal net worth limits set forth in these Regulations.

- B. In those cases in which an Applicant or Certified Firm and its affiliates are presumed, pursuant to the test described above, to constitute an Established Business the Contracting Equity Officer may notify the firm of the investigation into its status as an Established Business and shall allow the firm 15 calendar days to submit any evidence it has to rebut the presumption that the applicant is an Established Business. The Applicant or Certified Firm also may provide evidence that the industry standard is incorrect or an improper industry standard is being applied to the entity.

- C. Except as stated in paragraph (vi), below, if the Contracting Equity Officer, determines that an Applicant or Certified Firm is an Established Business in the NAICS code in which it is, or seeks to be, certified, the firm cannot be certified as a Certified Firm. The Contracting Equity Officer's decision shall be final with no provision for appeal. The Applicant or Certified Firm will be notified of the decision that it is an Established Business and cannot be certified.
 - i The determination that a firm cannot receive continued eligibility because it is an Established Business shall become effective on the date specified in the notification letter of the Contracting Equity Officer's decision (the "Effective Date"). Until the Effective Date of the Contracting Equity Officer's decision that an entity is an Established Business, the entity shall be considered certified.

 - i A MBE and/or WBE firm which cannot receive continued eligibility because it is an established firm will be considered a Participating Established Business as of the Effective Date. A Participating Established Business may participate in the City's MBE/WBE procurement program as follows:
 - (1) For a one-year period after the business entity has become an Established Business, 75% of such business's participation in a City contract shall count for the MBE or WBE participation requirement in accordance with Section 2-92-725 of the Municipal Code of Chicago;
 - (2) For a one-year period starting on the one-year anniversary of the date the business entity became an Established Business, 50% of such business's participation in a City contract shall count for the MBE or WBE participation requirement in accordance with Section 2-92-725 of the Municipal Code of Chicago;
 - (3) For a one-year period starting on the two-year anniversary of the date the business entity became an Established Business, 25% of such business's participation in a City contract shall count for the MBE or WBE participation requirement in accordance with Section 2-92-725 of the Municipal Code of Chicago.

 - iii A Participating Established Business will remain on the City of Chicago's directory of Certified Firms and is required to notify the City of any

change in its ownership, control, management, officers or financial relationships which may impact on the firm's eligibility under these Regulations in writing within ten (10) business days of such change(s). Failure to communicate such change as required herein shall constitute grounds for the denial of continued participation in the City's MBE/WBE certification program and may be ineligible to apply for re-certification for at least three years from the three-year anniversary of the Effective Date.

- iv. A Participating Established Business has an affirmative duty to inform any prime contractors who solicit the Participating Established Business as a subcontractor that only a percentage of its business's participation in a City contract shall count for the MBE or WBE participation requirement.
- v. An Established Business is considered to be a Non-Participating Established Business starting on the three-year anniversary of the Effective Date, and shall not be eligible to participate in the City's MBE and WBE construction procurement program starting on that three-year anniversary date.
- vi. An Established Business may apply for re-certification at such time as it has information to show a significant change in its ownership, management, contractual relations, size, or in other functions bearing on its status as an Established Business.

XX. SUSPENSION

The certification of a Certified Firm shall be immediately suspended when an individual owner whose ownership and control of the firm are necessary to the firm's certification dies or is incarcerated.

- A. Immediate suspension may occur when (i) there is adequate evidence to believe that there has been a material change in circumstances that may affect the eligibility of the Certified Firm to remain certified, or (ii) when the Certified Firm fails to notify the Department of Procurement Services in writing of any material change in circumstances as required by section XI or fails to timely file a No Change Affidavit under section XII.
- B. When a firm is suspended pursuant to part A of this section, the Certified Firm shall be immediately notified of the suspension by certified mail, return receipt requested, to the last known address of the owner(s) of the Certified Firm.
- C. Suspension is a temporary status of ineligibility pending a proceeding to determine whether the Certified Firm is eligible to participate in the program and consequently should be removed. The suspension takes effect when the Certified Firm receives, or is deemed to have received, the Notice of Suspension.
- D. While suspended, the Certified Firm may not be considered to meet a contract goal on a new contract. The Certified Firm may continue to perform under an existing contract

executed before it received a Notice of Suspension and may be counted toward the contract goal during the period of suspension as long as it is performing a commercially useful function under the existing contract.

- E. Following receipt of the Notice of Suspension, if the Certified Firm believes it is no longer eligible, it may voluntarily withdraw from the program, in which case no further action is required. If the Certified Firm believes that its eligibility should be reinstated, it must provide to the Contracting Equity Officer information demonstrating that the firm is eligible notwithstanding its changed circumstances within 30 days of receiving the Notice of Suspension. Upon receipt of this information, the Department of Procurement Services will either lift the suspension and reinstate the firm's certification or commence a decertification or ineligibility action under section XIII. If the Department of Procurement Services commences a decertification or ineligibility proceeding, the suspension remains in effect during the proceeding.

XXI. DEPOSITORY OF RECORDS

Records of all Applications for certification as a Certified Firm shall be maintained by the Contracting Equity Officer. All certification Application files are maintained electronically. The applicant must submit all certification documents electronically. Requests for an exception to this requirement may be granted at the discretion of the City. By electronically submitting a certification Application, the Applicant agrees to have such materials, including supporting documentation, stored electronically on the City's secure system.

XXII. COMPLIANCE WITH CONTRACT GOALS

On all contracts with MBE and WBE participation goals, the MBE and WBE goals are separate. Certified MBEs or WBEs may only be listed on a bidders' compliance plan as either an MBE or a WBE, but not both, to demonstrate compliance with the contract goals.

XXIII. DISCRETION OF THE CONTRACTING EQUITY OFFICER

The Contracting Equity Officer, has the discretion to rescind and/or reconsider any determination made by the Contracting Equity Officer under these Regulations if the Contracting Equity Officer discovers new information that leads her to believe that the Regulations were incorrectly applied or that a determination was erroneously made and that such incorrect application of the Regulations or erroneous decision is inconsistent with the intent of the Certification Programs. In such event, the Contracting Equity Officer, may rescind a determination for reconsideration and may take any such other actions as necessary to ensure fairness and the integrity of these Regulations.
