Good afternoon,

On behalf of the Solar Energy Industries Association, the Coalition for Community Solar Access, and the Illinois Solar Energy Association (“Joint Solar Parties”), please find demonstrative changes to the 2024 15-Year REC Contract, which would be required to be duplicated for the other REC Contracts. The comments are comprised of in-line text and explanatory margin comments.

In addition, the Joint Solar Parties note the request for comments expressed the “expectation” that all Approved Vendors would sign. While the Joint Solar Parties take no position on this requirement at this time, the Agency should consider in the future: (1) the procedure for requiring utilities to send partially executed addenda to Sellers with active REC Contracts, and (2) allowing sufficient time to sign, given that many of the projects are financed and typical financing agreements require consent of financing parties to sign amendments or addenda to major project contracts such as the REC Contract.

You can reach out to me with questions or feedback.

Thanks!

Michael R. Strong
