RE: [Commenter 13] Comments in Response to Draft REC Contract

Program Administrator:

[Commenter 13] writes in support of [redacted] comments in response to the Draft REC contract, submitted by [redacted] on December 19th and December 31st.

[Commenter 13] views the REC contract as foundational to the success of the Adjustable Block Program and is concerned that the proposed contract, as drafted, is not viable. We strongly urge the IPA and Program Administrator to review the concerns of the industry and draft a revised contract that ensures the resources and time invested into the Illinois solar market yield a healthy, competitive market.

Thank you for your consideration.

Respectfully submitted,

[Commenter 13 representative]
